

# Marriott International Reports Fourth Quarter 2019 Results

February 26, 2020

BETHESDA, Md., Feb. 26, 2020 /PRNewswire/ --

# HIGHLIGHTS

- Fourth quarter reported diluted EPS totaled \$0.85, compared to \$0.92 in the year-ago quarter. Fourth quarter adjusted diluted EPS totaled \$1.57, compared to fourth quarter 2018 adjusted diluted EPS of \$1.44. Reported and adjusted diluted EPS for the 2019 fourth quarter included the benefit of \$0.32 of asset sale gains, partially offset by \$0.26 of asset impairments. Reported and adjusted diluted EPS for the 2018 fourth quarter included the benefit of \$0.02 of asset sale gains;
- Fourth quarter 2019 comparable systemwide constant dollar RevPAR rose 1.1 percent worldwide, with 1.5 percent growth outside North America and 0.9 percent growth in North America;
- Worldwide comparable systemwide RevPAR index grew 240 basis points in the fourth quarter;
- Fourth quarter reported net income totaled \$279 million, a 12 percent decrease from prior year results. Fourth quarter adjusted net income totaled \$517 million, a 4 percent increase from prior year adjusted results;
- Adjusted EBITDA totaled \$901 million in the 2019 fourth quarter, a 4 percent increase compared to fourth quarter 2018 adjusted EBITDA;
- Full year 2019 reported diluted EPS totaled \$3.80, compared to \$5.38 in the prior year. Full year 2019 adjusted diluted EPS totaled \$6.00, compared to \$6.21 in the prior year. Reported and adjusted diluted EPS for 2019 included the benefit of \$0.33 of asset sale gains partially offset by \$0.25 of asset impairments. Reported and adjusted diluted EPS for 2018 included the benefit of \$0.66 and \$0.65 of asset sale gains, respectively;
- Full year 2019 comparable systemwide constant dollar RevPAR rose 1.3 percent worldwide, with 2.2 percent growth outside North America and 1.0 percent growth in North America;
- The company added more than 78,000 rooms globally during 2019, including roughly 14,300 rooms converted from competitor brands and approximately 34,000 rooms in international markets;
- At year-end 2019, Marriott's worldwide development pipeline totaled nearly 3,050 hotels and approximately 515,000 rooms, including roughly 23,000 rooms approved, but not yet subject to signed contracts. Over 220,000 rooms in the pipeline were under construction at the end of 2019;
- For full year 2019, Marriott repurchased 17.3 million shares of the company's common stock for \$2.3 billion, including 3.1 million shares for \$432 million in the fourth quarter.

Marriott International, Inc. (NASDAQ: MAR) today reported solid fourth quarter 2019 results.

Arne M. Sorenson, president and chief executive officer of Marriott International, said, "We are pleased with our performance in 2019. We grew rooms nearly 5 percent, achieved record RevPAR index gains, drove higher guest satisfaction scores, and maintained global hotel profit margins in a low RevPAR growth environment. Our fee-driven, asset light business model and successful asset recycling continued to generate significant excess cash, allowing us to return a total of \$2.9 billion to shareholders during the year.

"Marriott Bonvoy is driving market share at our hotels by leveraging our industry-leading distribution and powerful brand portfolio. Loyalty members accounted for 52 percent of occupied rooms in 2019, a 250-basis point increase year over year. Our worldwide systemwide RevPAR index for comparable hotels increased 200 basis points in 2019 and rose 240 basis points in the fourth quarter alone. We are increasing our market share of rooms as well, with record signings in 2019 taking our development pipeline to approximately 515,000 rooms at year-end.

"Our thoughts are with everyone impacted by the Coronavirus situation. I am particularly proud of our Asia Pacific team as they assist affected customers and fellow associates. To date, the crisis has primarily affected our Asia Pacific region.

"Given the fluid nature of the situation, we have not reflected the impact from the outbreak in our base case outlook for this year. For full year 2020, our base case outlook assumes comparable systemwide RevPAR on a constant dollar basis will be flat to up 2 percent, with RevPAR growth in North America around the middle of that range. We assume net rooms additions of 5 to 5.25 percent in 2020.

"Given those assumptions, our base case assumes gross fee revenues in 2020 could total \$4 billion, a 5 percent increase compared to 2019. However, assuming the current low occupancy rates in the Asia Pacific region continue, with no meaningful impact outside the region, we estimate the company could earn roughly \$25 million in lower fee revenue per month, compared to our 2020 base case outlook."

#### Fourth Quarter 2019 Results

Marriott's reported operating income totaled \$274 million in the 2019 fourth quarter, compared to 2018 fourth quarter reported operating income of \$422 million. Reported net income totaled \$279 million in the 2019 fourth quarter, compared to 2018 fourth quarter reported net income of \$317 million. Reported diluted earnings per share (EPS) totaled \$0.85 in the quarter, compared to reported diluted EPS of \$0.92 in the year-ago quarter.

Adjusted operating income in the 2019 fourth quarter totaled \$603 million, compared to 2018 fourth quarter adjusted operating income of \$680 million. Adjusted operating income in the 2019 fourth quarter includes impairment charges of \$114 million in depreciation, amortization, and other expenses.

Fourth quarter 2019 adjusted net income totaled \$517 million, compared to 2018 fourth quarter adjusted net income of \$497 million. Adjusted diluted EPS in the fourth quarter totaled \$1.57, compared to adjusted diluted EPS of \$1.44 in the year-ago quarter. Results for the 2019 fourth quarter include the benefit of \$134 million pretax (\$0.32 per share) of asset sale gains in gains and other income, net, partially offset by \$114 million pretax (\$0.26 per share) of impairment charges in depreciation, amortization, and other expenses. Results for the 2018 fourth quarter include a \$6 million pretax (\$0.02 per share) asset sale gain in gains and other income, net. Adjusted results exclude merger-related costs and charges, cost reimbursement revenue, and reimbursed expenses. See page A-3 for the 2019 adjusted diluted EPS calculation.

Base management and franchise fees totaled \$799 million in the 2019 fourth quarter, an 8 percent increase over base management and franchise fees of \$743 million in the year-ago quarter. The year-over-year increase in these fees is primarily attributable to rooms growth, RevPAR growth, and higher credit card branding fees.

Fourth quarter 2019 incentive management fees totaled \$175 million, a 5 percent increase compared to incentive management fees of \$167 million in the year-ago quarter.

The year-over-year increase largely reflects new units and higher net house profits at managed hotels in North America and Europe, partially offset by lower net house profits in Hong Kong.

Depreciation, amortization, and other expenses for the 2019 fourth quarter totaled \$179 million, compared to \$62 million in the year-ago quarter. The year-over-year change largely reflects a \$99 million impairment charge associated with a leased hotel in North America and a \$15 million impairment charge related to the sale of a hotel in North America.

General, administrative, and other expenses for the 2019 fourth quarter totaled \$267 million, compared to \$242 million in the year-ago quarter. The year-over-year change largely reflects an increase in development and legal costs, higher bad debt expense, and unfavorable foreign exchange.

In the 2019 fourth quarter, the company incurred \$14 million of expenses and recognized \$7 million of insurance recoveries related to the data security incident it disclosed on November 30, 2018. The expenses and insurance recoveries are reflected in either the reimbursed expenses or merger-related costs and charges lines of the Income Statement, both of which have been excluded from adjusted net income, adjusted EPS and adjusted EBITDA.

Based on the ongoing proceeding involving the U.K. Information Commissioner's Office (ICO), in the fourth quarter the company also reduced to \$65 million the non-tax deductible accrual recorded in the second quarter of 2019 for the fine proposed by ICO in July 2019 in relation to the data security incident. The reduction of the accrual is reflected in the merger-related costs and charges line of the Income Statement, which has been excluded from adjusted net income, adjusted EPS and adjusted EBITDA.

Gains and other income, net, totaled \$138 million, compared to \$3 million in the year-ago quarter. Gains and other income, net, in the 2019 fourth quarter primarily reflects \$134 million of gains associated with the sales of two hotels in North America.

#### Fourth Quarter 2019 Results Compared to November 5, 2019 Guidance

On November 5, 2019, the company estimated gross fee revenues would total \$960 million to \$970 million in the fourth quarter. Actual gross fee revenues totaled \$974 million in the quarter, largely reflecting higher than expected incentive management fees in North America.

The company estimated owned, leased, and other revenue, net of direct expenses, for the fourth quarter would total approximately \$85 million. Actual results of \$92 million in the quarter were higher than estimated, largely due to higher termination fees.

The company estimated depreciation, amortization, and other expenses for the fourth quarter would total approximately \$55 million. Actual expenses of \$179 million in the quarter were higher than estimated, largely due to asset impairments of \$114 million and contract write-offs related to terminated hotels.

The company estimated general, administrative, and other expenses for the fourth quarter would total \$250 million to \$255 million. Actual expenses of \$267 million in the quarter were higher than estimated, largely due to legal costs, bad debt expenses, and foreign exchange.

#### Selected Performance Information

The company added 173 new properties (25,399 rooms) to its worldwide lodging portfolio during the 2019 fourth quarter, including W Ibiza in Spain, JW Marriott Maldives, and North Island, a Luxury Collection Resort, Seychelles. Twenty-nine properties (6,400 rooms) exited the system during the quarter. At year-end, Marriott's global lodging system totaled more than 7,300 properties and timeshare resorts, with roughly 1,380,000 rooms.

At year-end, the company's worldwide development pipeline totaled 3,039 properties with approximately 515,000 rooms, including 1,207 properties with over 220,000 rooms under construction and 133 properties with roughly 23,000 rooms approved for development, but not yet subject to signed contracts.

In the 2019 fourth quarter, worldwide comparable systemwide constant dollar RevPAR increased 1.1 percent (a 0.8 percent increase using actual dollars). North American comparable systemwide constant dollar RevPAR increased 0.9 percent (a 0.9 percent increase using actual dollars), and international comparable systemwide constant dollar RevPAR increased 1.5 percent (a 0.6 percent increase using actual dollars) for the same period.

Worldwide comparable company-operated house profit margins increased 20 basis points in the fourth quarter, reflecting the impact of solid cost controls and synergies from the Starwood acquisition, partially offset by modest RevPAR growth and higher wages. House profit margins for international comparable company-operated properties increased 30 basis points and North American comparable company-operated house profit margins increased 10 basis points in the fourth quarter.

For full year 2019, worldwide comparable systemwide constant dollar RevPAR increased 1.3 percent (a 0.4 percent increase using actual dollars). North American comparable systemwide constant dollar RevPAR increased 1.0 percent (a 0.9 percent increase using actual dollars), and international comparable systemwide constant dollar RevPAR increased 1.0 percent (a 0.9 percent increase using actual dollars), and international comparable systemwide constant dollar RevPAR increased 1.0 percent (a 0.9 percent increase using actual dollars), and international comparable systemwide constant dollar RevPAR increased 2.2 percent (a 1.0 percent decrease using actual dollars) for the same period.

Worldwide comparable company-operated house profit margins were flat for full year 2019, largely due to solid cost controls and synergies from the Starwood acquisition, offset by modest RevPAR growth and higher wages. House profit margins for comparable company-operated properties outside North America rose 20 basis points and North American comparable company-operated house profit margins decreased 20 basis points year over year.

#### Balance Sheet

At year-end, Marriott's total debt was \$10.94 billion and cash balances totaled \$225 million, compared to \$9.347 billion in debt and \$316 million of cash at year-end 2018.

#### Marriott Common Stock

Weighted average fully diluted shares outstanding used to calculate both reported and adjusted diluted EPS totaled 330.4 million in the 2019 fourth quarter, compared to 345.7 million shares in the year-ago quarter.

The company repurchased 3.1 million shares of common stock in the 2019 fourth quarter for \$432 million at an average price of \$140.00 per share. For full year 2019, Marriott repurchased 17.3 million shares for \$2.3 billion at an average price of \$130.79 per share. Year to date through February 25, the company has repurchased 1.0 million shares for \$150 million at an average price of \$145.42 per share.

#### **Coronavirus**

Due to the uncertainty regarding the duration and extent of the Coronavirus outbreak, Marriott cannot fully estimate the financial impact from the virus, which could be material to first quarter and full year 2020 results. As such, the company is providing a base case outlook for the first quarter and full year 2020, which does not reflect any impact from the outbreak.

Assuming the current low occupancy rates in the Asia Pacific region continue, with no meaningful impact outside the region, Marriott estimates the company could earn roughly \$25 million in lower fee revenue per month, compared to its 2020 base case outlook. Room additions for the current year could also be delayed as a result of the Coronavirus outbreak.

#### 2020 Base Case Outlook, Not Including Impact from the Coronavirus

The following base case outlook for first quarter and full year 2020 does not reflect any impact from the Coronavirus outbreak, merger-related costs and charges, cost reimbursement revenue, or reimbursed expenses, each of which the company cannot forecast with sufficient accuracy, and which may be significant. The base case outlook for first quarter and full year 2020 does not reflect any additional asset sales that may occur during the year.

For the 2020 first quarter, Marriott assumes comparable systemwide RevPAR on a constant dollar basis will increase 1 to 2 percent worldwide and in North America.

The company assumes first quarter 2020 gross fee revenues will total \$940 million to \$950 million, a 5 to 6 percent increase over first quarter 2019 gross fee revenues of \$895 million. The company anticipates first quarter 2020 incentive management fees will decrease slightly compared to first quarter 2019 incentive management fees of

#### \$163 million.

The company assumes first quarter 2020 general, administrative, and other expenses could total \$230 million to \$234 million.

Marriott assumes first quarter 2020 adjusted EBITDA could total \$853 million to \$867 million, a 4 to 6 percent increase over first quarter 2019 adjusted EBITDA of \$821 million. See page A-12 for the adjusted EBITDA calculation.

For the full year 2020, Marriott assumes comparable systemwide RevPAR growth on a constant dollar basis will be flat to up 2 percent worldwide, with RevPAR growth in North America around the middle of that range.

Marriott assumes global room growth of 5.0 to 5.25 percent, net of 1 to 1.5 percent deletions for full year 2020.

The company assumes full year 2020 gross fee revenues will total \$3,960 million to \$4,040 million, a 4 to 6 percent increase over 2019 gross fee revenues of \$3,823 million, including roughly \$10 million of unfavorable foreign exchange. Full year 2020 estimated gross fee revenues include \$630 million to \$640 million of other franchise fees, a roughly 10 percent increase over other franchise fees for full year 2019. Other franchise fees include application fees, relicensing fees, timeshare licensing fees, credit card branding fees, and residential and other branding fees.

Marriott anticipates full year 2020 owned, leased, and other revenue, net of direct expenses, could total \$295 million to \$305 million.

The company assumes full year 2020 general, administrative, and other expenses could total \$950 million to \$960 million, a 1 to 2 percent increase from full year 2019 expenses of \$938 million.

The company anticipates full year 2020 diluted EPS could total \$6.30 to \$6.53. Full year 2019 adjusted diluted EPS totaled \$6.00. Full year adjusted 2019 results include the benefit of \$143 million pre-tax (\$0.33 per share) of asset sale gains in gains and other income, net, partially offset by asset impairments of \$114 million pre-tax (\$0.25 per share) in depreciation, amortization, and other expenses. See page A-3 for the 2019 adjusted diluted EPS calculation.

Marriott assumes full year 2020 adjusted EBITDA could total \$3,700 million to \$3,800 million, a 3 to 6 percent increase over 2019 adjusted EBITDA of \$3,575 million. See page A-13 for the adjusted EBITDA calculation.

<sup>1</sup>The base case outlook provided in this table does not reflect any impact from the Coronavirus outbreak, merger-related costs and charges, cost reimbursement revenue, or reimbursed expenses, each of which the company cannot forecast with sufficient accuracy, and which may be significant. It also does not reflect any additional asset sales that may occur during the year.

The company assumes investment spending in 2020 will total approximately \$700 million to \$800 million, including approximately \$200 million for maintenance capital. Investment spending also includes other capital expenditures (including property acquisitions), new mezzanine financing and mortgage notes, contract acquisition costs, and equity and other investments. The company estimates nearly 40 percent of its 2020 investment spending will be reimbursed or recycled over time.

In the first quarter, the company sold a hotel in North America for \$268 million subject to a long-term management agreement. Assuming the level of investment spending noted above, no additional asset sales, and no impact from the Coronavirus, cash returned to shareholders through share repurchases and dividends could total more than \$2.4 billion for full year 2020.

#### MARRIOTT INTERNATIONAL, INC. EXPLANATION OF NON-GAAP FINANCIAL AND PERFORMANCE MEASURES

In our press release and schedules, and on the related conference call, we report certain financial measures that are not required by, or presented in accordance with, United States generally accepted accounting principles ("GAAP"). We discuss management's reasons for reporting these non-GAAP measures below, and the press release schedules reconcile the most directly comparable GAAP measure to each non-GAAP measure that we refer to. Although management evaluates and presents these non-GAAP measures for the reasons described below, please be aware that these non-GAAP measures have limitations and should not be considered in isolation or as a substitute for revenue, operating income, net income, earnings per share or any other comparable operating measure prescribed by GAAP. In addition, we may calculate and/or present these non-GAAP financial measures differently than measures with the same or similar names that other companies report, and as a result, the non-GAAP measures we report may not be comparable to those reported by others.

Adjusted Operating Income and Adjusted Operating Income Margin. Adjusted operating income and Adjusted operating income margin exclude cost reimbursement revenue, reimbursed expenses, and merger-related costs and charges (credits). Adjusted operating income margin reflects Adjusted operating income divided by Adjusted total revenues. We believe that these are meaningful metrics because they allow for period-over-period comparisons of our ongoing operations before these items and for the reasons further described below.

Adjusted Net Income and Adjusted Diluted EPS. Adjusted net income and Adjusted diluted EPS reflect our net income and diluted earnings per share excluding the impact of cost reimbursement revenue, reimbursed expenses, merger-related costs and charges (credits), the gain on the sale of our ownership interest in Avendra, and the income tax effect of these adjustments, as well as the impact of the U.S. Tax Cuts and Jobs Act of 2017. We calculate the income tax effect of the adjustment using an estimated tax rate applicable to each adjustment. We have also presented Adjusted Net Income and Adjusted Diluted EPS excluding the impact of asset impairments, gains on asset dispositions, gains on investee's property sales, and the income tax effect of these adjustments. We believe that these measures are meaningful indicators of our performance because they allow for period-over-period comparisons of our ongoing operations before these items and for the reasons further described below.

Adjusted Earnings Before Interest Expense, Taxes, Depreciation and Amortization ("Adjusted EBITDA"). Adjusted EBITDA reflects net income excluding the impact of the following items: cost reimbursement revenue and reimbursed expenses, interest expense, depreciation (including depreciation classified in "Reimbursed expenses," as discussed below), amortization, and provision for income taxes, merger-related costs and charges (credits), and share-based compensation expense for all periods presented. When applicable, Adjusted EBITDA also excludes gains and losses on asset dispositions made by us or by our joint venture investees.

In our presentations of Adjusted operating income and Adjusted operating income margin, Adjusted net income, Adjusted diluted EPS, and Adjusted EBITDA, we exclude transaction and transition costs associated with the Starwood merger, which we record in the "Merger-related costs and charges" caption of our Income Statements, to allow for period-over period comparisons of our ongoing operations before the impact of these items. We exclude cost reimbursement revenue and reimbursed expenses, which relate to property-level and centralized programs and services that we operate for the benefit of our hotel owners. We do not operate these programs and services to generate a profit over the contract term, and accordingly, when we recover the costs that we incur for these programs and services from our hotel owners, we do not seek a mark-up. For property-level services, our owners typically reimburse us at the same time that we incur expenses. However, for centralized programs and services, our owners may reimburse us before or after we incur expenses, causing timing differences between the costs we incur and the related reimbursement from hotel owners in our operating and net income. Over the long term, these programs and services are not designed to impact our economics, either positively or negatively. Because we do not retain any such profits or losses over time, we exclude the net impact when evaluating period-over-period changes in our operating results.

We believe that Adjusted EBITDA is a meaningful indicator of our operating performance because it permits period-over-period comparisons of our ongoing operations before these items and facilitates our comparison of results before these items with results from other lodging companies. We use Adjusted EBITDA to evaluate companies because it excludes certain items that can vary widely across different industries or among companies within the same industry. For example, interest expense can be dependent on a company's capital structure, debt levels, and credit ratings. Accordingly, the impact of interest expense on earnings can vary significantly among companies. The tax positions of companies can also vary because of their differing abilities to take advantage of tax benefits and because of the tax policies of the jurisdictions in which they operate. As a result, effective tax rates and provisions for income taxes can vary considerably among companies. Our Adjusted EBITDA also excludes depreciation and amortization expense which we report under "Depreciation, amortization, and other" as well as depreciation classified in "Reimbursed expenses" and "Contract investment amortization" in our Consolidated Statements of Income (our "Income Statements"), because companies utilize productive assets of different ages and use different methods of both acquiring and depreciating productive assets. Depreciation classified in "Reimbursed expenses" reflects depreciation of marrit-owned assets, for which we receive cash from owners to reimburse the company for its investments made for the benefit of the system. These differences can compensation expense in all periods presented to address the considerable variability among companies. We exclude share-based compensation expense in all periods presented to address the considerable variability among companies use share-based payment awards differently, both in the type and quantity of awards granted.

# EXPLANATION OF NON-GAAP FINANCIAL AND PERFORMANCE MEASURES

**RevPAR.** In addition to the foregoing non-GAAP financial measures, we present Revenue per Available Room ("RevPAR") as a performance measure. We believe RevPAR is a meaningful indicator of our performance because it measures the period-over-period change in room revenues for comparable properties. RevPAR relates to property level revenue and may not be comparable to similarly titled measures, such as revenues, and should not be viewed as necessarily correlating with our fee revenue. We calculate RevPAR by dividing room sales (recorded in local currency) for comparable properties by room nights available for the period. We present growth in comparative RevPAR on a constant dollar basis, which we calculate by applying exchange rates for the current period to each period presented. We believe constant dollar analysis provides valuable information regarding our properties' performance as it removes currency fluctuations from the presentation of such results.
