

## MARRIOTT INTERNATIONAL REPORTS FOURTH QUARTER 2021 RESULTS

February 15 2022

BETHESDA, Md., Feb. 15, 2022 /PRNewswire/ --

- Fourth guarter 2021 comparable systemwide constant dollar RevPAR increased 124.5 percent worldwide, 143.6 percent in the U.S. & Canada, and 83.3 percent in international markets, compared to the 2020 fourth quarter;
- . Fourth guarter 2021 comparable systemwide constant dollar RevPAR declined 19.0 percent worldwide, 15.3 percent in the U.S. & Canada, and 28.2 percent in international markets, compared to the 2019 fourth quarter;
- Fourth quarter reported diluted EPS totaled \$1.42, compared to reported diluted loss per share of \$0.50 in the year-ago quarter. Fourth quarter adjusted diluted EPS totaled \$1.30, compared to fourth quarter 2020 adjusted diluted EPS of \$0.12;
- Fourth quarter reported net income totaled \$468 million, compared to reported net loss of \$164 million in the year-ago quarter. Fourth quarter adjusted net income totaled \$430 million, compared to fourth guarter 2020 adjusted net income of \$39 million;
- Adjusted EBITDA totaled \$741 million in the 2021 fourth quarter, compared to fourth quarter 2020 adjusted EBITDA of \$317 million;
- The company added more than 86,000 rooms globally during 2021, including approximately 43,000 rooms in international markets and a total of over 18,000 conversion rooms. Net rooms grew 3.9 percent from year-end 2020;
- At year end, Marriott's worldwide development pipeline totaled 2,831 properties and roughly 485,000 rooms, including approximately 19,000 rooms approved, but not yet subject to signed contracts. More than 202,000 rooms in the pipeline were under construction as of the end of 2021.

## Marriott International, Inc. (NASDAQ: MAR) today reported fourth quarter 2021 results.

Anthony Capuano, Chief Executive Officer, said, "The 2021 fourth quarter capped off a year that showed the incredible resilience of people's desire to travel and the appeal of our broad portfolio of 30 global brands. We experienced significant progress in global RevPAR<sup>1</sup> recovery in 2021 despite the emergence of new variants and ongoing headwinds from the global pandemic. By the fourth quarter, global RevPAR was 19 percent below 2019 levels, a 40-percentage point improvement from the decline in the first quarter of the year. Global average daily rate (ADR) nearly recovered to pre-pandemic levels in the 2021 fourth quarter, while occupancy came in at 58 percent, down 12 percentage points versus 2019. Leisure demand continued to shine in the fourth guarter, with slower, yet continued improvement in business transient and group demand.

"Each of our regions saw meaningful continued RevPAR recovery in the fourth quarter compared to the third quarter, with the exception of Greater China, where recovery stalled due to their zero COVID policy. In the U.S. & Canada, RevPAR declined 15 percent compared to fourth quarter 2019 levels versus a 20 percent decline in the third quarter compared to 2019. Compared to 2019 levels, our international hotels posted a 28-percent RevPAR decline in the fourth quarter, a 12-percentage point improvement from the third quarter. While Omicron caused a temporary setback in global demand recovery in January, especially for business transient and group travel, new bookings across customer segments have rebounded to pre-Omicron levels. We are optimistic that the global recovery will progress meaningfully throughout 2022.

"Our development team had a strong 2021, signing approximately 92,000 rooms, of which more than 50,000 were in international markets and more than 40 percent were in the upper upscale and luxury tiers. During the year, we added more than 86,000 gross rooms to our distribution, a new annual record, 21 percent of which were conversions. We were pleased to post 3.9 percent net rooms growth for 2021, exceeding our previous expectations. With our momentum around conversions and our industry-leading pipeline, we are bullish about our ability to increase our footprint over the next several years. For 2022, we expect gross rooms growth approaching 5 percent and deletions of 1 to 1.5 percent, resulting in anticipated net rooms growth of 3.5 to 4 percent.

"While we are keeping an eye on the continued impact from Omicron, we look forward to the day when we reach a new normal where the impact from COVID-19 on travel has essentially disappeared. In the meantime, we continue to focus on driving revenues, controlling costs, maximizing cash flow, and improving our credit metrics. Assuming no meaningful setback in the global recovery, we could begin returning cash to shareholders later in 2022.

"As I finish my first year as CEO, I could not be prouder of how our associates have managed through this crisis. They have worked tirelessly to serve our guests, support our owners and franchisees, and assist each other. I am incredibly optimistic about Marriott's future and look forward to continued recovery in 2022 and the prospects for meaningful growth in the coming years."

#### Fourth Quarter 2021 Results

Marriott's reported operating income totaled \$635 million in the 2021 fourth quarter, compared to 2020 fourth quarter reported operating loss of \$128 million. Reported net income totaled \$468 million in the 2021 fourth quarter, compared to 2020 fourth quarter reported net loss of \$164 million. Reported diluted earnings per share (EPS) totaled \$1.42 in the quarter, compared to reported diluted loss per share of \$0.50 in the year-ago quarter.

Adjusted operating income in the 2021 fourth quarter totaled \$578 million, compared to 2020 fourth quarter adjusted operating income of \$148 million. Adjusted operating income in the 2020 fourth quarter excluded impairment charges of \$44 million.

Fourth quarter 2021 adjusted net income totaled \$430 million, compared to 2020 fourth quarter adjusted net income of \$39 million. Adjusted diluted EPS in the 2021 fourth quarter totaled \$1.30, compared to adjusted diluted EPS of \$0.12 in the year-ago quarter. The 2020 fourth quarter adjusted results excluded income tax benefits of \$74 million (\$0.23 per share), impairment charges of \$88 million after-tax (\$0.27 per share), and loss on asset sales of \$4 million after-tax (\$0.01 per share).

Adjusted results also excluded restructuring and merger-related charges, cost reimbursement revenue, and reimbursed expenses. These items totaled \$38 million of after-tax profits (\$0.12 per share) in the 2021 fourth quarter and an after-tax loss of \$185 million (\$0.57 per share) in the 2020 fourth quarter. See pages A-3 and A-13 for the calculation of adjusted results and the manner in which the adjusted measures are determined in this press release.

Base management and franchise fees totaled \$737 million in the 2021 fourth quarter, compared to base management and franchise fees of \$379 million in the year-ago quarter. The year-over-year increase in these fees is primarily attributable to RevPAR increases due to the ongoing recovery in lodging demand. Other non-RevPAR related franchise fees in the 2021 fourth quarter totaled \$186 million, compared to \$133 million in the year-ago quarter, aided by higher credit card and residential branding fees.

Incentive management fees totaled \$94 million in the 2021 fourth quarter, compared to \$44 million in the 2020 fourth quarter. The year-over-year increase was split evenly between the International and U.S. & Canada segments.

Contract investment amortization for the 2021 fourth quarter totaled \$19 million, compared to \$38 million in the year-ago quarter. The year-over-year change largely reflects impairments of investments in management and franchise contracts recorded in the 2020 fourth quarter.

Owned, leased, and other revenue, net of direct expenses, totaled a profit of \$33 million in the 2021 fourth quarter, compared to a \$27 million loss in the year-ago quarter, and reflects the ongoing recovery in lodging demand.

Depreciation, amortization, and other expenses for the 2021 fourth quarter totaled \$54 million, compared to \$71 million in the year-ago quarter. Expenses in the 2020 fourth quarter included \$22 million of impairment charges.

General, administrative, and other expenses for the 2021 fourth quarter totaled \$213 million, compared to \$183 million in the year-ago quarter. The year-over-year increase primarily reflects higher compensation and legal costs.

Interest expense, net, totaled \$91 million in the fourth quarter compared to \$105 million in the year-ago quarter. The year-over-year decrease is largely due to lower debt balances.

Equity in losses were \$0 million, an improvement of \$87 million year over year, largely reflecting impairment charges recorded in the fourth quarter of 2020.

Adjusted earnings before interest, taxes, depreciation, and amortization (EBITDA) totaled \$741 million in the 2021 fourth quarter, compared to fourth quarter 2020 adjusted EBITDA of \$317 million. See page A-12 for the adjusted EBITDA calculation.

## Selected Performance Information

The company added 120 properties (20,440 rooms) to its worldwide lodging portfolio during the 2021 fourth quarter, including over 3,500 conversion rooms and approximately 10,000 rooms in international markets. Twenty-three properties (4,955 rooms) exited the system during the quarter. At year end, Marriott's global lodging system totaled 7,989 properties, with more than 1,479,000 rooms.

At year end, the company's worldwide development pipeline totaled 2,831 properties with roughly 485,000 rooms, including 1,008 properties with more than 202,000 rooms under construction and 98 properties with approximately 19,000 rooms approved for development, but not yet subject to signed contracts.

In the 2021 fourth quarter, worldwide RevPAR increased 124.5 percent (a 124.9 percent increase using actual dollars) compared to the 2020 fourth quarter. RevPAR in the U.S. & Canada increased 143.6 percent (a 143.9 percent increase using actual dollars), and RevPAR in international markets increased 83.3 percent (an 84 percent increase using actual dollars).

#### Balance Sheet and Liquidity

At year-end 2021, Marriott's net debt was \$8.7 billion, representing total debt of \$10.1 billion less cash and equivalents of \$1.4 billion. At year-end 2020, the company's net debt was \$9.5 billion, representing total debt of \$10.4 billion less cash and equivalents of \$0.9 billion.

#### Investment Spending

Marriott anticipates that full year 2022 investment spending will total \$600 million to \$700 million. Total investment spending includes capital and technology expenditures, loan advances, contract acquisition costs, and other investing activities.

#### COVID-19

Due to the numerous uncertainties associated with COVID-19, Marriott cannot presently estimate the impact of this unprecedented situation on its future results, which is highly dependent on the severity and duration of the pandemic and its impacts, but expects that COVID-19 will continue to be material to the company's results.

Marriott International, Inc. (NASDAQ: MAR) will conduct its quarterly earnings review for the investment community and news media on Tuesday, February 15, 2022, at 8:30 a.m. Eastern Time (ET). The conference call will be webcast simultaneously via Marriott's investor relations website at <a href="http://www.marriott.com/investor">http://www.marriott.com/investor</a>, click on "Events & Presentations" and click on the quarterly conference call link. A replay will be available at that same website until February 14, 2023.

The telephone dial-in number for the conference call is US Toll Free: 866-342-8591 or Global: +1 203-518-9713. The conference ID is MAR4Q21. A telephone replay of the conference call will be available from 1:00 p.m. ET, Tuesday, February 15, 2022, until 8:00 p.m. ET, Tuesday, February 22, 2022. To access the replay, call US Toll Free: 800-723-1517 or Global: +1 402-220-2659.

Note on forward-looking statements: All statements in this press release and the accompanying schedules are made as of February 15, 2022. We undertake no obligation to publicly update or revise these statements, whether as a result of new information, future events or otherwise. This press release and the accompanying schedules contain "forward-looking statements" within the meaning of federal securities laws, including statements related to the possible effects on our business of the COVID-19 pandemic (COVID-19); recovery in lodging demand; travel and lodging demand and trends; our growth prospects and expectations; future performance of the company's hotels; our development pipeline, signings, rooms growth and conversions; our investment spending expectations; our expectations regarding capital returns to shareholders; and similar statements concerning anticipated future events and expectations that are not historical facts. We caution you that these statements are not guarantees of future performance and are subject to numerous evolving risks and uncertainties that we may not be able to accurately predict or assess, including the risk factors that we identify in our Securities and Exchange Commission filings, including our most recent Annual Report on Form 10-K or Quarterly Report on Form 10-Q. Any of these factors could cause actual results to differ materially from the expectations we express or imply in this press release.

Marriott International, Inc. (NASDAQ: MAR) is based in Bethesda, Maryland, USA, and encompasses a portfolio of nearly 8,000 properties under 30 leading brands spanning 139 countries and territories. Marriott operates and franchises hotels and licenses vacation ownership resorts all around the world. The company offers Marriott Bonvoy®, its highly-awarded travel program. 1 Franchise fees include fees from our franchise agreements, application and relicensing fees, licensing fees from our timeshare, credit card programs, and residential branding fees.

2 Contract investment amortization includes amortization of capitalized costs to obtain contracts with our owner and franchisee customers, and any related impairments, accelerations, or write-offs.

3 Owned, leased, and other revenue includes revenue from the properties we own or lease, termination fees, and other revenue.

4 Cost reimbursement revenue includes reimbursements from properties for property-level and centralized programs and services that we operate for the benefit of our hotel owners. Reimbursed expenses include costs incurred by Marriott for certain property-level operating expenses and centralized programs and services.

5 Owned, leased, and other - direct expenses include operating expenses related to our owned or leased hotels, including lease payments and pre-opening expenses. Depreciation, amortization, and other expenses include depreciation for fixed assets, amortization of capitalized costs incurred to acquire management, franchise, 6

and license agreements, and any related impairments, accelerations, or write-offs. 7

General, administrative, and other expenses include our corporate and business segments overhead costs and general expenses.

8 Gains and other income, net includes gains and losses on the sale of real estate, the sale of joint venture interests and other investments, and adjustments from other equity investments.

9 Equity in losses include our equity in losses of unconsolidated equity method investments.

10 Basic and fully diluted weighted average shares outstanding used to calculate earnings (loss) per share for the period in which we had a loss are the same because inclusion of additional equivalents would be anti-dilutive.

\*\* Denotes non-GAAP financial measures. Please see pages A-13 and A-14 for information about our reasons for providing these alternative financial measures and the limitations on their use.

#### MARRIOTT INTERNATIONAL, INC. EXPLANATION OF NON-GAAP FINANCIAL AND PERFORMANCE MEASURES

In our press release and schedules, and on the related conference call, we report certain financial measures that are not required by, or presented in accordance with, United States generally accepted accounting principles ("GAAP"). We discuss the manner in which the non-GAAP measures reported in this press release and schedules are determined and management's reasons for reporting these non-GAAP measures below, and the press release schedules reconcile the most directly comparable GAAP measure to each non-GAAP measures that we refer to. Although management evaluates and presents these non-GAAP measures for the reasons described below, please be aware that these non-GAAP measures have limitations and should not be considered in isolation or as a substitute for revenue, operating income/loss, net income/loss, earnings/loss per share or any other comparable operating measure prescribed by GAAP. In addition, we may calculate and/or present these non-GAAP financial measures differently than measures with the same or similar names that other companies report, and as a result, the non-GAAP measures we report may not be comparable to those reported by others.

Adjusted Operating Income and Adjusted Operating Income Margin. Adjusted operating income and Adjusted operating income margin exclude cost reimbursement revenue, reimbursed expenses, restructuring and merger-related charges, and certain non-cash impairment charges. Adjusted operating income margin reflects Adjusted operating income divided by Adjusted total revenues. We believe that these are meaningful metrics because they allow for period-over-period comparisons of our ongoing operations before these items and for the reasons further described below.

Adjusted Net Income and Adjusted Diluted Earnings Per Share. Adjusted net income and Adjusted diluted earnings per share reflect our net income/loss and diluted earnings/loss per share excluding the impact of cost reimbursement revenue, reimbursed expenses, restructuring and merger-related charges, certain non-cash impairment charges, loss on extinguishment of debt, losses and gains on asset dispositions, and the income tax effect of these adjustments. We calculate the income tax effect of the adjustments using an estimated tax rate applicable to each adjusted net income tax disted diluted earnings per share also exclude the income tax special items primarily related to the income tax benefits arising from the favorable resolution of pre-acquisition Starwood tax audits in 2021 and 2020. We believe that these measures are meaningful indicators of our performance because they allow for period-over-period comparisons of our ongoing operations before these items and for the reasons further described below.

Adjusted Earnings Before Interest Expense, Taxes, Depreciation and Amortization ("Adjusted EBITDA"). Adjusted EBITDA reflects net income/loss excluding the impact of the following items: cost reimbursement revenue, reimbursed expenses, loss on extinguishment of debt, interest expense, depreciation and amortization (including depreciation and amortization classified in "Reimbursed expenses," as discussed below), certain non-cash impairment charges related to equity investments, benefit (provision) for income taxes, restructuring and merger-related charges (recoveries), and stock-based compensation expense for all periods presented. When applicable, Adjusted EBITDA also excludes gains and losses on asset dispositions made by us or by our joint venture investees.

In our presentations of Adjusted operating income and Adjusted operating income margin, Adjusted net income and Adjusted diluted earnings per share, and Adjusted EBITDA, as applicable, we exclude charges incurred under our restructuring plans that we initiated beginning in the 2020 second quarter to achieve cost savings in response to the decline in lodging demand caused by COVID-19 and transition costs associated with the Starwood merger, which we record in the "Restructuring and merger-related charges" caption of our Consolidated Statements of Income (our "Income Statements"), as well as the loss related to the debt extinguishment, as applicable, which we record in the "Loss on extinguishment of debt" caption of our Income Statements, to allow for period-over period comparisons of our ongoing operations before the impact of these items. We also exclude non-cash impairment charges (if above a specified threshold) related to our management and franchise contracts (if the impairment is non-routine), leases, equity investments, and other capitalized assets, which we record in the "Contract investment amortization," "Depreciation, amortization, and other," and "Equity in losses" captions of our Income Statements to allow for period-over period comparisons of our ongoing operations before the impact of these items. We eaclude cost reimbursement revenue and reimbursed expenses, which relate to property-level and centralized programs and services that we operate for the benefit of our hotel owners. We do not operate these programs and services to generate a profit over the long term, and accordingly, when we recover the costs that we incur for these programs and services from our hotel owners, we do not seek a mark-up. For property-level services, our owners typically reimburse us at the same time that we incur expenses. However, for centralized programs and services our operating and net income. Over the long term, hese programs cours of we related reimbursement from hotel owners in our operating and net income. Ove

We believe that Adjusted EBITDA is a meaningful indicator of our operating performance because it permits period-over-period comparisons of our ongoing operations before these items and facilitates our comparison of results before these items with results from other lodging companies. We use Adjusted EBITDA to evaluate companies because it excludes certain items that can vary widely across different industries or among companies within the same industry. For example, interest expense can be dependent on a company's capital structure, debt levels, and credit ratings. Accordingly, the impact of interest expense on earnings can vary significantly among companies. The tax positions of companies can also vary because of their differing abilities to take advantage of tax benefits and because of the tax policies of the jurisdictions in which they operate. As a result, effective tax rates and provisions for income taxes can vary considerably among companies. Our Adjusted EBITDA also excludes depreciation and amortization expense, which we report under "Depreciation, amortization, and other" as well as depreciation and amortization classified in "Contract investment amortization," "Reimbursed expenses," and "Equity in losses" of our Income Statements, because companies utilize productive assets of different ages and use different methods of both acquiring and depreciating productive assets. Depreciation and amortization classified in "Reimbursed expenses" reflects depreciation and amortization of Marriott-owned assets and software, for which we receive cash from owners to reimburse the company for its investments made for the benefit of the system. These differences can result in considerable variability in the relative costs of productive assets and the depreciation and amortization expense among companies. We exclude stock-based compensation expense in all periods presented to address the considerable variability among companies in recording compensation expense because companies use stock-based payment awards differe

MARRIOTT INTERNATIONAL, INC. EXPLANATION OF NON-GAAP FINANCIAL AND PERFORMANCE MEASURES RevPAR. In addition to the foregoing non-GAAP financial measures, we present Revenue per Available Room ("RevPAR") as a performance measure. We believe RevPAR is a meaningful indicator of our performance because it measures the period-over-period change in room revenues for comparable properties. RevPAR relates to property level revenue and may not be comparable to similarly titled measures, such as revenues, and should not be viewed as necessarily correlating with our fee revenue. We calculate RevPAR by dividing room sales (recorded in local currency) for comparable properties by room nights available for the period. We do not consider interruptions related to COVID-19 when determining which properties to classify as comparable. The comparisons between 2021 and 2019 reflect properties that are defined as comparable as of December 31, 2021, even if in 2019 they were not open and operating for the full year or did not meet all the other criteria for comparable in 2019. We present growth in comparative RevPAR on a constant dollar basis, which we calculate by applying exchange rates for the period to each period presented. We believe constant dollar analysis provides valuable information regarding our properties' performance as it removes currency fluctuations from the presentation of such results.
