NOTE ON FORWARD-LOOKING STATEMENTS: This document contains “forward-looking statements” within the meaning of federal securities laws, including our RevPAR, profit margin and earnings outlook and assumptions; the number of lodging properties we expect to add to or remove from our system in the future; the timeline for the unification and combination of our loyalty programs; our expectations regarding the estimates of the impact of new accounting standards and the new tax law; our expectations about investment spending and tax rate; and similar statements concerning anticipated future events and expectations that are not historical facts. We caution you that these statements are not guarantees of future performance and are subject to numerous risks and uncertainties, including those we identify below and other risk factors that we identify in our most recent quarterly report on Form 10-Q or annual report on Form 10-K. Risks that could affect forward-looking statements in this document include changes in market conditions; changes in global and regional economies; supply and demand changes for hotel rooms; competitive conditions in the lodging industry; relationships with clients and property owners; the availability of capital to finance hotel growth and refurbishment; the extent to which we can continue to successfully integrate Starwood and realize the anticipated benefits of combining Starwood and Marriott; changes to our provisional estimates of the impact of the U.S. Tax Cuts and Jobs Acts of 2017; and changes to our estimates of the impact of the new accounting standards. Any of these factors could cause actual results to differ materially from the expectations we express or imply in this press release. We make these forward-looking statements as of August 6, 2018. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Reported Operating Income $2,504
Adjusted Operating Income $2,725 to $2,770 $2,432 $2,715 to $2,765
Reported Net Income $1,459
Adjusted Net Income $1,600
Reported Fully Diluted EPS $3.84
Adjusted Fully Diluted EPS $5.81 to $5.91 $4.21 $5.43 to $5.55
Adjusted EBITDA $3,450 to $3,495 $3,131 $3,445 to $3,500

2017 has been recast to reflect the full retrospective application of the new revenue standard. Adjusted measures exclude merger-related adjustments, cost reimbursement revenue and reimbursed expenses, the Avendra gain and the U.S. Tax Cuts and Jobs Act of 2017. See the Form 8-K furnished on July 25, 2018 (non-GAAP reconciliations therefrom are also attached to these slides). Adjusted measures in outlook exclude merger-related adjustments, cost reimbursement revenue and reimbursed expenses, which the company cannot accurately forecast and which may be significant.
2018 OUTLOOK

- $800 million to $900 million investment spending, including $225 million for maintenance capital and $255 million for Sheraton Grand Phoenix
- Year-to-date recycled more than $500 million of capital through asset sales & loan repayments
- Since the Starwood acquisition, recycled $1.8 billion of capital
- Outlook assumes no further asset sales
- Expect more than $3.1 billion return to shareholders in 2018

1 Franchise fees include fees from our franchise agreements, application and relicensing fees, licensing fees from our timeshare, credit card programs, and residential branding fees.
2 Contract investment amortization includes amortization of capitalized costs to obtain contracts with our owner and franchisee customers, and any related impairments, accelerations, or write-offs.
3 Owned, leased, and other revenue includes revenue from the properties we own or lease, termination fees, and other revenue.
4 Cost reimbursement revenue includes reimbursements from properties for property-level and centralized programs and services that we operate for the benefit of our hotel owners. Reimbursed expenses include costs incurred by Marriott for certain property-level operating expenses and centralized programs and services.
5 Owned, leased, and other - direct expenses include operating expenses related to our owned or leased hotels, including lease payments and pre-opening expenses.
6 Depreciation, amortization, and other expenses include depreciation for fixed assets, amortization of capitalized costs incurred to acquire management, franchise, and license agreements, and any related impairments, accelerations, or write-offs.
7 General, administrative, and other expenses include our corporate and business segments overhead costs and general expenses.
8 Gains and other income, net includes gains and losses on the sale of real estate, the sale or impairment of joint ventures and investments, and results from other equity investments.
9 Equity in earnings include our equity in earnings or losses of unconsolidated equity method investments.
10 On January 1, 2018, we adopted ASU 2014-09. This column reflects our recast 2017 results under the new accounting standard.

** Denotes non-GAAP financial measures. Please see pages A-15 and A-16 for information about our reasons for providing these alternative financial measures and the limitations on their use.

1 On January 1, 2018, we adopted ASU 2014-09. This column reflects our recast 2017 results under the new accounting standard.

2 Merger-related costs, charges, and other includes Starwood merger costs presented in the “Merger-related costs and charges” caption of our Income Statement and purchase accounting revisions.

**Denotes non-GAAP financial measures. Please see pages A-15 and A-16 for information about our reasons for providing these alternative financial measures and the limitations on their use.**

1 Represents the percentage increase of Adjusted EBITDA of $1,709 million for the first two quarters of 2018 over Adjusted EBITDA of $1,536 million for the first two quarters of 2017.

2 On January 1, 2018, we adopted ASU 2014-09. The table above reflects our recast 2017 results under the new accounting standard.
** Denotes non-GAAP financial measures. See pages A-15 and A-16 for information about our reasons for providing these alternative financial measures and the limitations on their use.

1 Guidance excludes cost reimbursement revenue, reimbursed expenses, and merger-related costs and charges, which the company cannot accurately forecast and which may be significant, except for depreciation classified in reimbursed expenses, which is included in the caption "Depreciation classified in reimbursed expenses" above.

2 On January 1, 2018, we adopted ASU 2014-09. The table above reflects our recast 2017 results under the new accounting standard. For 2017 full year recast information, see the Form 8-K that we furnished on July 25, 2018.

** Denotes non-GAAP financial measures. See pages A-15 and A-16 for information about our reasons for providing these alternative financial measures and the limitations on their use.

1 Guidance excludes cost reimbursement revenue, reimbursed expenses, and merger-related costs and charges, which the company cannot accurately forecast and which may be significant, except for depreciation classified in reimbursed expenses, which is included in the caption "Depreciation classified in reimbursed expenses" above.

2 On January 1, 2018, we adopted ASU 2014-09. The table above reflects our recast 2017 results under the new accounting standard. For 2017 full year recast information, see the Form 8-K that we furnished on July 25, 2018.
In our press release and schedules, and on the related conference call, we report certain financial measures that are not required by, or presented in accordance with, United States generally accepted accounting principles ("GAAP"). We discuss management’s reasons for reporting these non-GAAP measures below, and the press release schedules reconcile the most directly comparable GAAP measure to each non-GAAP measure that we refer to. Although management evaluates and presents these non-GAAP measures for the reasons described below, please be aware that these non-GAAP measures have limitations and should not be considered in isolation or as a substitute for revenue, operating income, income from continuing operations, net income, earnings per share or any other comparable operating measure prescribed by GAAP. In addition, we may calculate and/or present these non-GAAP financial measures differently than measures with the same or similar names that other companies report, and as a result, the non-GAAP measures we report may not be comparable to those reported by others.

**Adjusted Operating Income and Adjusted Operating Income Margin.** Adjusted operating income and Adjusted operating income margin exclude cost reimbursement revenue, reimbursed expenses, merger-related costs and charges, Starwood merger costs presented in the "Merger-related costs and charges" caption of our Income Statements, and net purchase accounting revisions. Adjusted operating income margin reflects Adjusted operating income divided by Adjusted total revenues. We believe that these are meaningful metrics because they allow for period-over-period comparisons of our ongoing operations before these items and for the reasons further described below.

**Adjusted Net Income and Adjusted Diluted EPS.** Adjusted net income and Adjusted diluted EPS reflect our net income and diluted earnings per share excluding the impact of cost reimbursement revenue, reimbursed expenses, merger-related costs, charges, and other merger-related adjustments due to purchase accounting, the gain on the sale of our ownership interest in Avendra, and the income tax effect of these adjustments, and our provisional estimate of the impact of the U.S. Tax Cuts and Jobs Act of 2017. We calculate the income tax effect of the adjustments using an estimated tax rate applicable to each adjustment. We believe that these measures are meaningful indicators of our performance because they allow for period-over-period comparisons of our ongoing operations before these items and for the reasons further described below.

**Adjusted Earnings Before Interest Expense, Taxes, Depreciation and Amortization ("Adjusted EBITDA").** Adjusted EBITDA reflects net income excluding the impact of the following items: cost reimbursement revenue and reimbursed expenses, interest expense, depreciation (including depreciation classified in "Reimbursed expenses," as discussed below), amortization, and provision for income taxes, pre-tax transaction and transition costs associated with the Starwood merger, and share-based compensation expense for all periods presented. When applicable, Adjusted EBITDA also excludes gains and losses on asset dispositions made by us or by our joint venture investees.

In our presentations of Adjusted operating income and Adjusted operating income margin, Adjusted net income, and Adjusted diluted EPS, we exclude transaction and transition costs associated with the Starwood merger, which we record in the "Merger-related costs and charges" caption of our Income Statements, and other merger-related adjustments due to purchase accounting, to allow for period-over-period comparisons of our ongoing operations before the impact of these items. We exclude cost reimbursement revenue and reimbursed expenses, which relate to property-level and centralized programs and services that we operate for the benefit of our hotel owners. We do not operate these programs and services to generate a profit over the contract term, and accordingly, when we recover the costs that we incur for these programs and services from our hotel owners, we do not seek a mark-up. For property-level services, our owners typically reimburse us at the same time that we incur expenses. However, for centralized programs and services, our owners may reimburse us before or after we incur expenses, causing temporary timing differences between the costs we incur and the related reimbursement from hotel owners in our operating and net income. Over the long term, these programs and services are not designed to impact our economics, either positively or negatively. Because we do not retain any such profits or losses over time, we exclude the net impact when evaluating period-over-period changes in our operating results.
We believe that Adjusted EBITDA is a meaningful indicator of our operating performance because it permits period-over-period comparisons of our ongoing operations before these items and facilitates our comparison of results before these items with results from other lodging companies. We use Adjusted EBITDA to evaluate companies because it excludes certain items that can vary widely across different industries or among companies within the same industry. For example, interest expense can be dependent on a company’s capital structure, debt levels, and credit ratings. Accordingly, the impact of interest expense on earnings can vary significantly among companies. The tax positions of companies can also vary because of their differing abilities to take advantage of tax benefits and because of the tax policies of the jurisdictions in which they operate. As a result, effective tax rates and provisions for income taxes can vary considerably among companies. Our Adjusted EBITDA also excludes depreciation and amortization expense which we report under “Depreciation, amortization, and other” as well as depreciation classified in “Reimbursed expenses” and “Contract investment amortization” in our Consolidated Statements of Income (our “Income Statements”), because companies utilize productive assets of different ages and use different methods of both acquiring and depreciating productive assets. Depreciation classified in “Reimbursed expenses” reflects depreciation of Marriott-owned assets, for which we receive cash from owners to reimburse the company for its investments made for the benefit of the system. These differences can result in considerable variability in the relative costs of productive assets and the depreciation and amortization expense among companies. We exclude share-based compensation expense in all periods presented to address the considerable variability among companies in recording compensation expense because companies use share-based payment awards differently, both in the type and quantity of awards granted.

RevPAR. In addition to the foregoing non-GAAP financial measures, we present Revenue per Available Room (“RevPAR”) as a performance measure. We believe RevPAR is a meaningful indicator of our performance because it measures the period-over-period change in room revenues for comparable properties. RevPAR may not be comparable to similarly titled measures, such as revenues. We calculate RevPAR by dividing room sales (recorded in local currency) for comparable properties by room nights available for the period. We present growth in comparative pro forma combined company RevPAR on a constant dollar basis, which we calculate by applying exchange rates for the current period to each period presented. We believe constant dollar analysis provides valuable information regarding our properties' performance as it removes currency fluctuations from the presentation of such results.

**Denotes non-GAAP financial measures. Please see pages 5 and 6 for information about our reasons for providing these alternative financial measures and the limitations on their use.
We report certain financial measures that are not required by, or presented in accordance with, United States generally accepted accounting principles (“GAAP”). We discuss management’s reasons for reporting these non-GAAP measures below, and the preceding schedules reconcile the most directly comparable GAAP measure to each non-GAAP measure that we refer to. Although management evaluates and presents these non-GAAP measures for the reasons described below, please be aware that these non-GAAP measures have limitations and should not be considered in isolation or as a substitute for revenue, operating income, income from continuing operations, net income, earnings per share or any other comparable operating measure prescribed by GAAP. In addition, we may calculate and/or present these non-GAAP financial measures differently than measures with the same or similar names that other companies report, and as a result, the non-GAAP measures we report may not be comparable to those reported by others.

**Adjusted Operating Income and Adjusted Operating Income Margin.** Adjusted operating income and Adjusted operating income margin exclude cost reimbursement revenue, reimbursed expenses, Starwood merger costs presented in the “Merger-related costs and charges” caption of our Income Statement, and net purchase accounting revisions. We believe that these are meaningful metrics because they allow for period-over-period comparisons of our ongoing operations before these items and for the reasons further described below.

**Adjusted Net Income and Adjusted Diluted EPS.** Adjusted net income and Adjusted diluted EPS reflect our net income and diluted earnings per share excluding the impact of cost reimbursement revenue, reimbursed expenses, merger-related costs, charges, and other merger-related adjustments due to purchase accounting, the gain on the sale of our ownership interest in Avendra, and the income tax effect of these adjustments, and with respect to our 2017 fourth quarter and full year results, our provisional estimate of the impact of the U.S. Tax Cuts and Jobs Act of 2017. We calculate the income tax effect of the adjustments using an estimated tax rate applicable to each adjustment. We believe that these measures are meaningful indicators of our performance because they allow for period-over-period comparisons of our ongoing operations before these items and for the reasons further described below.

**Adjusted Earnings Before Interest Expense, Taxes, Depreciation and Amortization (“Adjusted EBITDA”).** Adjusted EBITDA reflects net income excluding the impact of the following items: cost reimbursement revenue and reimbursed expenses, interest expense, depreciation (including depreciation classified in “Reimbursed expenses,” as discussed below), amortization, and provision for income taxes, pre-tax transaction and transition costs associated with the Starwood merger, gains and losses on asset dispositions, and share-based compensation expense for all periods presented.

In our presentations of Adjusted operating income and operating income margin, Adjusted net income, and Adjusted diluted EPS, we exclude transaction and transition costs associated with the Starwood merger, which we record in the “Merger-related costs and charges” caption of our Income Statements, and other merger-related adjustments due to purchase accounting, to allow for period-over-period comparisons of our ongoing operations before the impact of these items. We exclude cost reimbursement revenue and reimbursed expenses, which relate to property-level and centralized programs and services that we operate for the benefit of our hotel owners. We do not operate these programs and services to generate a profit over the contract term, and accordingly, when we recover the costs that we incur for these programs and services from our hotel owners, we do not seek a mark-up. For property-level services, our owners typically reimburse us at the same time that we incur expenses. However, for centralized programs and services, our owners may reimburse us before or after we incur expenses, causing temporary timing differences between the costs we incur and the related reimbursement from hotel owners in our operating and net income. Over the long term, these programs and services are not designed to impact our economics, either positively or negatively. Because we do not retain any such profits or losses over time, we exclude the net impact when evaluating period-over-period changes in our operating results.

We believe that Adjusted EBITDA is a meaningful indicator of our operating performance because it permits period-over-period comparisons of our ongoing operations before these items and facilitates our comparison of results before these items with results from other lodging companies. We use Adjusted EBITDA to evaluate companies because it excludes certain items that can vary widely across different industries or among companies within the same industry. For example, interest expense can be dependent on a company’s capital structure, debt levels, and credit ratings. Accordingly, the impact of interest expense on earnings can vary significantly among companies. The tax positions of companies can also vary because of their differing abilities to take advantage of tax benefits and because of the tax policies of the jurisdictions in which they operate. As a result, effective tax rates and provisions for income taxes can vary considerably among companies. Our Adjusted EBITDA also excludes depreciation and amortization expense which we report under “Depreciation, amortization, and other” as well as depreciation classified in “Reimbursed expenses” and “Contract investment amortization” in our Consolidated Statements of Income (our “Income Statements”), because companies utilize productive assets of different ages and use different methods of both acquiring and depreciating productive assets. Depreciation classified in “Reimbursed expenses” reflects depreciation of...
Marriott-owned assets, for which we receive cash from owners to reimburse the company for its investments made for the benefit of the system. These differences can result in considerable variability in the relative costs of productive assets and the depreciation and amortization expense among companies. We exclude share-based compensation expense in all periods presented to address the considerable variability among companies in recording compensation expense because companies use share-based payment awards differently, both in the type and quantity of awards granted.
