Item 7.01 Regulation FD Disclosure.

As previously announced, on September 23, 2016, Marriott International, Inc. ("Marriott" or "the Company") completed its acquisition of Starwood Hotels & Resorts Worldwide, LLC, formerly known as Starwood Hotels & Resorts Worldwide, Inc. ("Starwood") through a series of transactions, after which Starwood became an indirect wholly-owned subsidiary of the Company.

This Current Report on Form 8-K is furnished to make available certain combined financial information and lodging statistics for the Marriott business and Starwood business for the interim and annual periods ended December 31, 2015 and 2016. The accompanying unaudited combined financial information and lodging statistics give effect to Marriott's acquisition of Starwood, and Starwood's sale of its timeshare business, as if these two transactions had occurred on January 1, 2015, and reflect other adjustments as described therein.

Item 9.01 Financial Statements and Exhibits.

(d) The following exhibit is furnished as a part of this Form 8-K.

Exhibit No. Description

Exhibit 99 Unaudited Combined Financial Information and Lodging Statistics for the interim and annual periods ended December 31, 2015 and 2016

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Date: February 15, 2017

| Exhibit 99 | Unaudited Combined Financial Information and Lodging Statistics for the interim and annual periods ended December 31, 2015 and 2016 |

MARRIOTT AND STARWOOD UNAUDITED COMBINED FINANCIAL INFORMATION AND LODGING STATISTICS

Basis of Presentation

The accompanying unaudited combined financial information and lodging statistics give effect to Marriott's acquisition of Starwood, and Starwood's sale of its timeshare business, as if these two transactions (the "Transactions") had occurred on January 1, 2015, and are presented to facilitate comparisons with our results following the acquisition of Starwood.

The unaudited combined financial information also uses the estimated fair value of assets and liabilities on September 23, 2016, the closing date of the acquisition, and makes the following assumptions: (1) removes merger-related costs and charges; (2) removes a loss on cumulative translation adjustment related to Starwood's disposition of a hotel property in the 2016 second quarter; (3) adjusts income taxes to reflect the Company's combined 2016 effective tax rate of 32.5%; (4) adjusts weighted-average shares outstanding to include shares issued to Starwood shareholders; and (5) adjusts debt to reflect borrowing on the Credit Facility and issuance of Series Q and R Notes on January 1, 2015. While the impact of share repurchases completed by Marriott in 2015 and 2016 are reflected in the accompanying unaudited combined financial information, no incremental share repurchase is assumed. Refer to page 6 for a reconciliation of combined net income to pro forma net income in accordance with Article 11 of Regulation S-X.

The 2016 fourth quarter net income presented herein represents actual reported numbers adjusted to eliminate merger-related costs, net of tax at the actual effective tax rate.

The unaudited combined financial information also includes a reclassification of branding fees from credit cards and residential sales, which historically has been classified in owned, leased and other revenue in our reported results. The purpose of the reclassification is to conform with our current plans to present branding fees in franchise fees beginning in the 2017 first quarter. Our 2016 Form 10-K will present branding fees within owned, leased and other revenue, consistent with our historical presentation.

The accompanying information excludes reimbursed revenues and reimbursed costs, which have no impact on the combined net income as presented.

Marriott presents the combined financial information for informational purposes only and the combined financial information is not necessarily indicative of what the combined company's results of operations would actually have been had the Transactions been completed on the date indicated. In addition, the combined financial information does not purport to project the future operating results of the combined company. There were no material transactions between Marriott and Starwood during the period presented in the combined financial information that would need to be eliminated.

¹⁾ See page 6 for a reconciliation of combined net income presented above to pro forma net income calculated in accordance with Article 11 of Regulation S-X. For the 2016 fourth quarter, see page A-3 in our 2016 fourth quarter earnings release included as Exhibit 99 to our Form 8-K dated February 15, 2017 for a reconciliation of net income to adjusted net income.

^{**} Denotes non-GAAP financial measures. Refer to page 6 for information about our reasons for providing these alternative financial measures and the limitations on their use.

MARRIOTT INTERNATIONAL, INC. NON-GAAP FINANCIAL AND PERFORMANCE MEASURES

Earnings Before Interest Expense, Taxes, Depreciation and Amortization ("EBITDA"), Combined EBITDA, Adjusted EBITDA, and Combined Adjusted EBITDA. On page 5 we present Adjusted EBITDA and Combined Adjusted EBITDA, which are financial measures not required by, or presented in accordance with, the United States generally accepted accounting principles ("GAAP"). EBITDA and Combined EBITDA reflect adjusted net income or combined net income, as applicable, excluding the impact of interest expense, depreciation, amortization, and provision for income taxes. Our non-GAAP measures of Adjusted EBITDA and Combined Adjusted EBITDA further adjust EBITDA or Combined EBITDA, respectively, to exclude the following items: (1) gains and losses on asset dispositions and impairments; (2) the pre-tax EDITION impairment charges in the 2015 first quarter; (3) the pre-tax preferred equity investment gain in the 2015 second quarter; and (4) share-based compensation expense for all periods presented.

Combined net income includes additional adjustments that are not prescribed by Article 11 of Regulation S-X. The following table presents reconciliations of pro forma net income in accordance with Article 11 to combined net income presented on the previous pages.

| | Fiscal Year 2016 | | | | | | | |
|---|------------------|-----------------|----|-----------------|------------------|------|--|--|
| (in millions) | | First uarter | | econd uarter | Third Quarter | | | |
| Pro forma net income under Article 11 | \$ | 291 | \$ | 209 | \$ | 179 | | |
| Merger-related costs and charges | | 3 | | 16 | | 220 | | |
| Income taxes (1) | | (4) | | 17 | | (55) | | |
| Loss on cumulative translation adjustment | | _ | | 91 | | _ | | |
| Combined net income | \$ | 290 | \$ | 333 | \$ | 344 | | |

| | Fiscal Year 2015 | | | | | | | |
|---------------------------------------|------------------|------------------|----|-------------------|----|------------------|----|-----------------|
| (in millions) | _ | First Quarter | | Second Quarter | | Third Quarter | | ourth iarter |
| Pro forma net income under Article 11 | \$ | 264 | \$ | 335 | \$ | 280 | \$ | 306 |
| Merger-related costs and charges | | 16 | | 8 | | 3 | | 5 |
| Income taxes (1) | | (8) | | (17) | | (8) | | (20) |
| Combined net income | \$ | 272 | \$ | 326 | \$ | 275 | \$ | 291 |

⁽¹⁾ Combined net income applies an effective income tax rate of 32.5% for all periods presented. For pro forma net income under Article 11, we applied the historical effective tax rates for Marriott and Starwood.

We believe that Adjusted EBITDA and Combined Adjusted EBITDA are meaningful indicators of our operating performance because they permit period-over-period comparisons of our ongoing core operations before these items and facilitate our comparison of results before these items with results from other lodging companies. We use such measures to evaluate companies because they exclude certain items that can vary widely across different industries or among companies within the same industry. For example, interest expense can be dependent on a company's capital structure, debt levels, and credit ratings. Accordingly, the impact of interest expense on earnings can vary significantly among companies. The tax positions of companies can also vary because of their differing abilities to take advantage of tax benefits and because of the tax policies of the jurisdictions in which they operate. As a result, effective tax rates and provisions for income taxes can vary considerably among companies. Our Adjusted EBITDA and Combined Adjusted EBITDA also exclude depreciation and amortization expense which we report under "Depreciation, amortization, and other" as well as depreciation included under "Reimbursed costs" in our Combined Consolidated Statements of Income, because companies utilize productive assets of different ages and use different methods of both acquiring and depreciating productive assets. These differences can result in considerable variability in the relative costs of productive assets and the depreciation and amortization expense among companies. We also excluded share-based compensation expense in all periods presented in order to address considerable variability among companies in recording compensation expense because companies use share-based payment awards differently, both in the type and quantity of awards granted. Although management evaluates and presents these non-GAAP measures for the reasons described above, please be aware that these non-GAAP measures have limitations and should not be considered in isolation or as a substitute for revenue, operating income, income from continuing operations, net income, earnings per share or any other comparable operating measure prescribed by GAAP.

RevPAR. In addition to the foregoing non-GAAP financial measures, we present Revenue per Available Room ("RevPAR") as a performance measure. We believe RevPAR is a meaningful indicator of our performance because it measures the period-over-period change in room revenues for comparable properties. RevPAR may not be comparable to similarly titled measures, such as revenues. We calculate RevPAR by dividing room sales (recorded in local currency) for comparable properties by room nights available for the period. We present growth in both comparative Legacy-Marriott RevPAR and comparative pro forma combined company RevPAR on a constant dollar basis, which we calculate by applying exchange rates for the current period to each period presented. We believe constant dollar analysis provides valuable information regarding our properties' performance as it removes currency fluctuations from the presentation of such results.
