**Re: Marriott International, Inc.  
Form 10-K for the Fiscal Year Ended January 2, 2009  
Filed February 12, 2009  
File No. 1-13881**

Dear Mr. Marriott:

We have limited our review of your filing to disclosure relating to your contacts with countries that have been identified as state sponsors of terrorism, and we have the following comments. Our review with respect to this issue does not preclude further review by the Assistant Director group with respect to other issues. At this juncture, we are asking you to provide us with supplemental information, so that we may better understand your disclosure. Please be as detailed as necessary in your response. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filings. We look forward to working with you in these respects. We welcome any questions you may have about our comments or on any other aspect of our review. Feel free to call us at the telephone numbers listed at the end of this letter.

General

1. We note from the "Global Section" of your website that you have a sales representative, Nazha Group, located in Damascus, Syria. Syria is identified by the State Department as a state sponsor of terrorism, and is subject to U.S. economic sanctions and export controls. We note that your Form 10-K does not include disclosure regarding contacts with Syria. Please describe to us the nature and extent of your past, current, and anticipated operations in, or other contacts with, Syria, whether through subsidiaries, joint ventures, or other direct or indirect arrangements. Your response should describe any services you have provided to Syria, directly or indirectly, and any agreements, commercial arrangements, or other contacts you have had with the Syrian government or entities controlled by that government.
2. Please discuss the materiality of your contacts with Syria, and whether those

contacts constitute a material investment risk for your security holders. You should address materiality in quantitative terms, including the dollar amounts of revenues, assets, and liabilities associated with Syria, for the last three fiscal years and any subsequent period. Also, address materiality in terms of qualitative factors that a reasonable investor would deem important in making an investment decision, including the potential impact of corporate activities upon a company's reputation and share value. As you may be aware, various state and municipal governments, universities, and other investors have proposed or adopted divestment or similar initiatives regarding investment in companies that do business with U.S.-designated state sponsors of terrorism. Your materiality analysis should address the potential impact of the investor sentiment evidenced by such actions directed toward companies that have operations associated with Syria.
