BETHESDA, MD – July 31, 2024 - Marriott International, Inc. (Nasdaq: MAR) today reported second quarter 2024 results.

Anthony Capuano, President and Chief Executive Officer, said, “Marriott reported strong second quarter results, with net rooms up 6 percent year over year and worldwide RevPAR<sup>1</sup> growth of nearly 5 percent, as consumers continued to prioritize travel. International RevPAR increased more than 7 percent, with Asia Pacific excluding China leading the way, posting an impressive 13 percent RevPAR increase from the year-ago quarter.

“In the U.S. & Canada, second quarter RevPAR grew nearly 4 percent, with all customer segments growing versus the prior year quarter. Group RevPAR rose nearly 10 percent year over year, with both rate and occupancy increasing in the mid-single digits.

“With a membership base of over 210 million members and growing, Marriott Bonvoy is a key competitive advantage. We remain focused on enhancing the loyalty program’s benefits and finding new ways to engage with our members both on and off property. In June, we announced a collaboration with Starbucks. The number of members who have linked their accounts is already well exceeding our expectations.

“Owner preference for our brands remains strong. We signed nearly 31,000 rooms in the quarter, 75 percent of which were in international markets. Our momentum around conversions continued, accounting for 37 percent of room additions in the quarter. We continue to expand our industry leading global portfolio, and our expectation for net rooms growth remains at 5.5 to 6 percent for full year 2024.

“With our solid financial results and strong cash generation, we have already returned \$2.8 billion to shareholders year-to-date through July 29. We expect to return approximately \$4.3 billion to our shareholders in 2024 through share repurchases and dividends.”

### **Second Quarter 2024 Results**

Base management and franchise fees totaled \$1,148 million in the 2024 second quarter, a 9 percent increase compared to base management and franchise fees of \$1,057 million in the year-ago quarter.

<sup>1</sup>All occupancy, Average Daily Rate (ADR) and Revenue Per Available Room (RevPAR) statistics and estimates are systemwide constant dollar. Unless otherwise stated, all changes refer to year-over-year changes for the comparable period. Occupancy, ADR and RevPAR comparisons between 2024 and 2023 reflect properties that are comparable in both years.

The increase is primarily attributable to RevPAR increases and unit growth. Non-RevPAR-related franchise fees in the 2024 second quarter totaled \$234 million, compared to \$206 million in the year-ago quarter. The increase was largely driven by a 10 percent increase in co-branded credit card fees, as well as \$13 million of higher residential branding fees.

Incentive management fees totaled \$195 million in the 2024 second quarter, compared to \$193 million in the 2023 second quarter, and were impacted by weaker results in Greater China, as well as unfavorable foreign exchange. Managed hotels in international markets contributed more than 60 percent of the incentive fees earned in the quarter.

Owned, leased, and other revenue, net of direct expenses, totaled \$99 million in the 2024 second quarter, compared to \$103 million in the year-ago quarter.

General, administrative, and other expenses for the 2024 second quarter totaled \$248 million, compared to \$240 million in the year-ago quarter.

Interest expense, net, totaled \$164 million in the 2024 second quarter, compared to \$141 million in the year-ago quarter. The increase was largely due to higher interest expense associated with higher debt balances.

Marriott's reported operating income totaled \$1,195 million in the 2024 second quarter, compared to 2023 second quarter reported operating income of \$1,096 million. Reported net income totaled \$772 million in the 2024 second quarter, compared to 2023 second quarter reported net income of \$726 million. Reported diluted earnings per share (EPS) totaled \$2.69 in the quarter, compared to reported diluted EPS of \$2.38 in the year-ago quarter.

Adjusted operating income in the 2024 second quarter totaled \$1,120 million, compared to 2023 second quarter adjusted operating income of \$1,043 million. Second quarter 2024 adjusted net income totaled \$716 million, compared to 2023 second quarter adjusted net income of \$690 million. Adjusted diluted EPS in the 2024 second quarter totaled \$2.50, compared to adjusted diluted EPS of \$2.26 in the year-ago quarter.

Adjusted results excluded cost reimbursement revenue, reimbursed expenses and merger-related charges and other expenses. See page A-3 and page A-11 of the press release schedules for the calculation of adjusted results and the manner in which the adjusted measures are determined in this press release.

Adjusted earnings before interest, taxes, depreciation, and amortization (EBITDA) totaled \$1,324 million in the 2024 second quarter, compared to second quarter 2023 adjusted EBITDA of \$1,219 million. See page A-11 of the press release schedules for the adjusted EBITDA calculation.

### **Selected Performance Information**

The company added roughly 15,500 net rooms during the quarter.

At the end of the quarter, Marriott's global system totaled nearly 9,000 properties, with roughly 1,659,000 rooms.

At the end of the quarter, the company's worldwide development pipeline totaled 3,509 properties with more than 559,000 rooms, including 208 properties with roughly 33,000 rooms approved for development, but not yet subject to signed contracts. The quarter-end pipeline included 1,127 properties with over 209,000 rooms under construction. Fifty-seven percent of rooms in the quarter-end pipeline are in international markets.

In the 2024 second quarter, worldwide RevPAR increased 4.9 percent (a 4.0 percent increase using actual dollars) compared to the 2023 second quarter. RevPAR in the U.S. & Canada increased 3.9 percent (a 3.9 percent increase using actual dollars), and RevPAR in international markets increased 7.4 percent (a 4.2 percent increase using actual dollars).

### **Balance Sheet & Common Stock**

At the end of the quarter, Marriott's total debt was \$13.1 billion and cash and equivalents totaled \$0.3 billion, compared to \$11.9 billion in debt and \$0.3 billion of cash and equivalents at year-end 2023.

Year to date through July 29, the company has repurchased 10.4 million shares for \$2.5 billion.

## Company Outlook

The company's updated outlook includes a narrowing of the RevPAR growth range for full year 2024, primarily as a result of a weaker operating environment in Greater China, as well as marginally softer expectations in the U.S. & Canada.

**MARRIOTT INTERNATIONAL, INC.**  
**EXPLANATION OF NON-GAAP FINANCIAL AND PERFORMANCE MEASURES**

In our press release and schedules, on the related conference call, and in the infographic made available in connection with our press release, we report certain financial measures that are not required by, or presented in accordance with, United States generally accepted accounting principles (“GAAP”). These non-GAAP financial measures are labeled as “adjusted” and/or identified with the symbol “†”. We discuss the manner in which the non-GAAP measures reported in this press release, schedules, and infographic are determined and management's reasons for reporting these non-GAAP measures below, and the press release schedules reconcile each to the most directly comparable GAAP measures (with respect to the forward-looking non-GAAP measures, to the extent available without unreasonable efforts). Although management evaluates and presents these non-GAAP measures for the reasons described below, please be aware that these non-GAAP measures have limitations and should not be considered in isolation or as a substitute for revenue, operating income, net income, earnings per share, or any other comparable operating measure prescribed by GAAP. In addition, we may calculate and/or present these non-GAAP financial measures differently than measures with the same or similar names that other companies report, and as a result, the non-GAAP measures we report may not be comparable to those reported by others.

**Adjusted Operating Income and Adjusted Operating Income Margin.** Adjusted operating income and Adjusted operating income margin exclude cost reimbursement revenue, reimbursed expenses, merger-related charges and other expenses, and certain non-cash impairment charges (when applicable). Adjusted operating income margin reflects Adjusted operating income divided by Adjusted total revenues. We believe that these are meaningful metrics because they allow for period-over-period comparisons of our ongoing operations before these items and for the reasons further described below.

**Adjusted Net Income and Adjusted Diluted Earnings Per Share.** Adjusted net income and Adjusted diluted earnings per share reflect our net income and diluted earnings per share excluding the impact of cost reimbursement revenue, reimbursed expenses, merger-related charges and other expenses, certain non-cash impairment charges (when applicable), and gains and losses on asset dispositions made by us or by our joint venture investees (when applicable). Additionally, Adjusted net income and Adjusted diluted earnings per share exclude the income tax effect of the above adjustments (calculated using an estimated tax rate applicable to each adjustment) and income tax special items, which in 2023 primarily related to the resolution of tax audits. We believe that these measures are meaningful indicators of our performance because they allow for period-over-period comparisons of our ongoing operations before these items and for the reasons further described below.

**Adjusted Earnings Before Interest Expense, Taxes, Depreciation and Amortization (“Adjusted EBITDA”).** Adjusted EBITDA reflects net income excluding the impact of the following items: cost reimbursement revenue and reimbursed expenses, interest expense, depreciation and amortization, provision (benefit) for income taxes, merger-related charges and other expenses, and stock-based compensation expense for all periods presented. When applicable, Adjusted EBITDA also excludes certain non-cash impairment charges and gains and losses on asset dispositions made by us or by our joint venture investees.

In our presentations of Adjusted operating income and Adjusted operating income margin, Adjusted net income and Adjusted diluted earnings per share, and Adjusted EBITDA, we exclude merger-related charges and other expenses as well as non-cash impairment charges (if above a specified threshold) related to our management and franchise contracts (if the impairment is non-routine), leases, equity investments, and other capitalized assets, which we record in the “Contract investment amortization,” “Depreciation, amortization, and other,” and “Equity in earnings” captions of our Condensed Consolidated Statements of Income (our “Income Statements”), to allow for period-over period comparisons of our ongoing operations before the impact of these items. We exclude cost reimbursement revenue and reimbursed expenses, which relate to property-level and centralized programs and services that we operate for the benefit of our property owners. We do not operate these programs and services to generate a profit over the long term, and accordingly, when we recover the costs that we incur for these programs and services from our property owners, we do not seek a mark-up. For property-level services, our owners typically reimburse us at the same time that we incur expenses. However, for centralized programs and services, our owners may reimburse us before or after we incur expenses, causing timing differences between the costs we incur and the related reimbursement from property owners in our operating and net income. Over the long term, these programs and services are not designed to impact our economics, either positively or negatively. Because we do not retain any such profits or losses over time, we exclude the net impact when evaluating period-over-period changes in our operating results.

We believe that Adjusted EBITDA is a meaningful indicator of our operating performance because it permits period-over-period comparisons of our ongoing operations before these items. Our use of Adjusted EBITDA also facilitates comparison with results from other lodging companies because it excludes certain items that can vary widely across different industries or among companies within the same industry. For example, interest expense can be dependent on a company's capital structure, debt levels, and credit ratings. Accordingly, the impact of interest expense on earnings can vary significantly among companies. The tax positions of companies can also vary because of their differing abilities to take advantage of tax benefits and because of the tax policies of the jurisdictions in which they operate. As a result, effective tax rates and provisions for income taxes can vary considerably among companies. Our Adjusted EBITDA also excludes depreciation and amortization expense, which we report under “Depreciation, amortization, and other” as well as depreciation and amortization classified in “Contract investment amortization,” “Reimbursed expenses,” and “Equity in earnings” of our Income Statements, because companies utilize productive assets of different ages and use different methods of both acquiring and depreciating productive assets. Depreciation and amortization classified in “Reimbursed expenses” reflects depreciation and amortization of Marriott-owned assets, for which we receive cash from owners to reimburse the company for its investments made for the benefit of the system. These differences can result in considerable variability in the relative costs of productive assets and the depreciation and amortization expense among companies. We exclude stock-based compensation expense in all periods presented to address the considerable variability among companies in recording compensation expense because companies use stock-based payment awards differently, both in the type and quantity of awards granted.

**RevPAR.** In addition to the foregoing non-GAAP financial measures, we present Revenue per Available Room (“RevPAR”) as a performance measure. We believe RevPAR, which we calculate by dividing property level room revenue by rooms available for the period, is a meaningful

**MARRIOTT INTERNATIONAL, INC.**  
**EXPLANATION OF NON-GAAP FINANCIAL AND PERFORMANCE MEASURES**

indicator of our performance because it measures the period-over-period change in room revenues. RevPAR may not be comparable to similarly titled measures, such as revenues, and should not be viewed as necessarily correlating with our fee revenue. We also believe occupancy and average daily rate ("ADR"), which are components of calculating RevPAR, are meaningful indicators of our performance. Occupancy, which we calculate by dividing total rooms sold by total rooms available for the period, measures the utilization of a property's available capacity. ADR, which we calculate by dividing property level room revenue by total rooms sold, measures average room price and is useful in assessing pricing levels. Comparisons to prior periods are on a constant U.S. dollar basis, which we calculate by applying exchange rates for the current period to the prior comparable period. We believe constant dollar analysis provides valuable information regarding our properties' performance as it removes currency fluctuations from the presentation of such results.

We define our comparable properties as our properties that were open and operating under one of our hotel brands since the beginning of the last full calendar year (since January 1, 2023 for the current period) and have not, in either the current or previous year: (1) undergone significant room or public space renovations or expansions, (2) been converted between company-operated and franchised, or (3) sustained substantial property damage or business interruption. Our comparable properties also exclude MGM Collection with Marriott Bonvoy, Design Hotels, The Ritz-Carlton Yacht Collection, and timeshare properties.

**Non-RevPAR Related Franchise Fees.** In this press release, we also discuss non-RevPAR related franchise fees, which include co-branded credit card, timeshare and yacht fees, residential branding fees, franchise application and relicensing fees, and certain other non-hotel licensing fees.
